

Lighthouse Sweden

Lighthouse Sweden is the story of the Doctor and the Drifter, Mats and Linda, who met, married and made music. If you listen for it, there's a sense of longing, perhaps because the music was made so far away from the place that inspired it. Their songs would be good companions to anyone travelling the roads meandering through rolling hills, passing quiet towns and silent cities at night. And then onwards...

Critical Commentary on their debut album "Lighthouse" (2014):

"Lighthouse is as good an album of roots and Americana music as I've heard this year."
(Blues Bytes, USA)

"The record does not contain a single weak track, listening to the music created by the Brandemark couple is an uninterrupted pleasure."
(Rootsy, SWE)

"The duo's blend of foot-stomping Americana, country music and melancholy pop will make your mouth water."
(Joyzine, SWE)

"They've got a knack for hooks" (Goldmine, USA)

"...and with some excellent vocals and musical performances, this might be the one to get them some well deserved attention"
(The Rocker, U.K.)
